

Do you know that  
the Bloomberg administration  
and the Agency for Childrens Services  
are planning to close 16 public  
Day Care Centers  
in Brooklyn, Queens & Manhattan?

To close public day care centers now -- before the budget process is complete -- is bad management of public resources and downright shameful.

Call the Mayor at 311. Tell Mayor Bloomberg to keep all 16 day care centers open. Children, working parents, day care workers and their families depend on these centers every day!

Call your city council member, your assembly person and your state senator and tell them to join this fight for New York's children and working families.

Contact your house of worship, your neighbors and your friends in this fight for our children -- every voice counts.
